Critical Intelligence Problems Committee

2 July 1985
DDW-121

WEEKLY ACTIVITIES AND STATUS REPORT FOR THE DD/ICS--3 July 1985

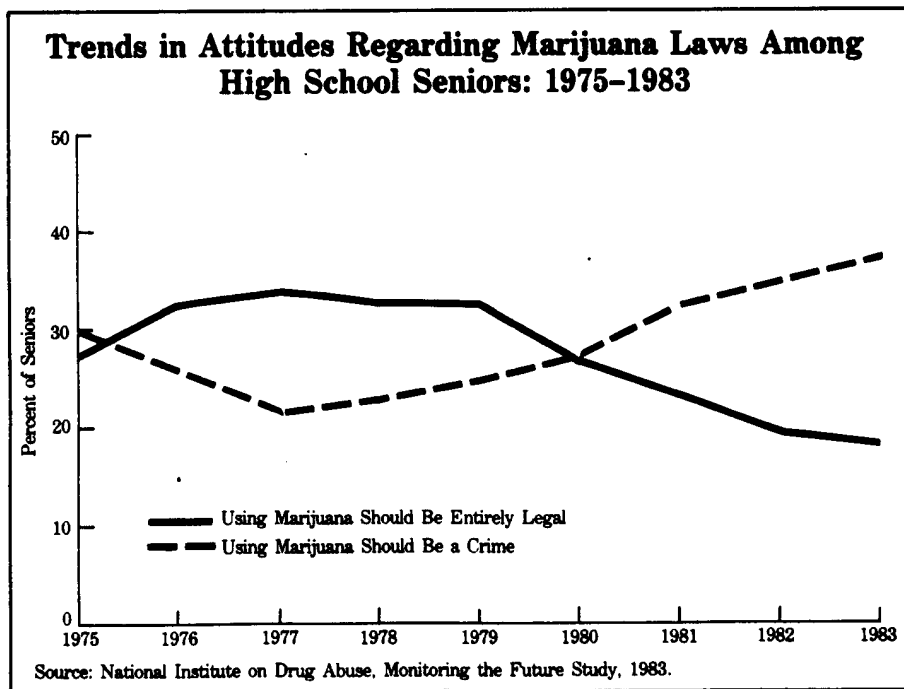

CIPC Organizational Activities

- We are operating with a limited staff this week. It is that time of the year when everyone takes their vacation. Although we have several staffers taking leave during July and August, their leaves have been planned around the CIPC studies presently being addressed--Narcotics Follow-up, BMD and Mobile Missile.
 - 25X1 ● Ray received a call from the new CIA Deputy Comptroller, [redacted]
25X1 [redacted] on 1 July 1985. He had heard about the CIPC and wanted to know about the studies we have produced to date. In addition, he wants to meet with Ray at a later date and discuss the CIPC.
 - 25X1 ● The first meeting of the reconstituted BMD Working Group is scheduled
25X1 for 10 July. [redacted] is encouraged by the initial responses from the Working Group members. Subsequent to the 10 July meeting, Rich and [redacted] will review all the substantive inputs from the members to determine what further inputs are necessary, if any, and develop a draft report for working group review and coordination. If all goes accordingly to schedule, we should have the BMD Follow-up report ready for CIPC consideration at the September meeting--I do not anticipate an August meeting since, most of the CIPC principals take their vacation during August.
 - The Mobile Missile Panel will be meeting on 10 July to discuss their additional task of providing support and expertise to the Defense Science Board effort on Imprecisely Located Targets.
 - The Narcotics Working Group met on 25 June. George chaired the meeting which was called to review the draft follow-on narcotics report. Overall the meeting went well and changes suggested at the session have been included. The latest draft was forwarded to the working group members on 1 July, and they have been requested to provide telephonic comments/coordination by 10 July.
- We plan to table the Narcotics Follow-up report at a late-July CIPC meeting.

WEEKLY ACTIVITIES AND STATUS REPORT FOR THE DD/ICS--3 July 1985 (cont.)

- The May issue of the Government Executive magazine has a very interesting article on the administration's nation drug strategy and the positive effects it has had over the past few years. I find the following graphic of particular interest:
